

PROSTATE AWARENESS FOUNDATION SUPPORT GROUP

Monthly meeting on the 1ST THURSDAY OF EACH MONTH

San Francisco Discussion & Support Group Meeting

Thursday, February 2nd, 2017 7-9pm

One Ferry Building, San Francisco Ferry Building, Market at Embarcadero
2nd Floor / Conifer Securities Offices/ Rm 255, San Francisco, CA

February Topic: *"Cannabis as Medicine for Prostate Cancer"* *What's the latest, What's the Truth?*

There is a great deal of interest in the use of cannabis as a possible treatment for prostate cancer, other cancers and chronic diseases of aging. Research on the subject has been scarce due to Federal legislation and laws against its use. Now that State laws are changing all over the United States new research is becoming available almost on a daily basis. But it's hard to separate the truth about this potential cancer cure from marketing hype and anecdotal feedback. Lynda LeMole - herbalist and PAF board member, John Bohan - Senior PAF Mentor and Ken Malik - PAF Founder and Executive Director have devoted much time and research reviewing the latest literature and talking to those on cannabis protocols. There is so much to learn!

Join us for an interesting and informative evening exploring the subject. Some of the topics we will address: proper dosing. The best medicinal strains. CBD and or THC? What is the best ratio between the two? What are the best methods of application? We will also devote time to success stories, what's hype and what's real?

Statistics indicate that cancer patients in support group settings live twice as long as those not involved. Come join us for support, information and discussion. For more info, email Ken Malik at kamalik@prostateawarenessfoundation.org or call him at 415-675-5661.
