Presented by John Bohan & Ken Malik

Are you still trying to decide how best to treat your diagnosed prostate cancer? Have you failed conventional treatment and are now looking at all your options? Or maybe you just want to stay current with the latest non-toxic alternative treatments for cancer. In any event you won't want to miss this informative lecture.

Join us for an interesting evening and important discussion. Time will be available to discuss questions and concerns you may personally have about prostate health. You don't have to have a prostate or prostate issues to attend, and your friends and loved ones are always welcome.

*Statistics indicate that cancer patients in support group settings live twice as long as those not involved. Come join us for support, information and discussion.
