**January Topic: Prostate Cancer Research Institute Symposium Recap  
Presented by John Bohan - PAF Board President**

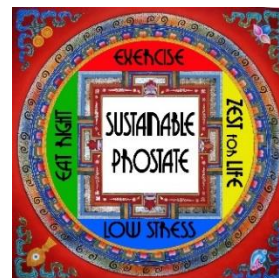

This recap presentation was originally scheduled for November but was postponed due to the Camp Fire. The PCRI, located in Los Angeles is the go to non-profit when it comes to the latest information on conventional prostate cancer treatment options. Once again this September the PCRI held its annual symposium. John Bohan was in attendance on behalf of the PAF and will lead the discussion.

We will discuss and recap some of the lectures, which included the latest information on radiation, advanced cancer protocols, sexual dysfunction after therapy, pathology reports and immunotherapy.

Join us for an interesting and important discussion. Time will also be available to discuss your personal prostate concerns. This is a great opportunity to meet people of similar interests, ask questions, voice concerns and have an in-depth discussion's about men's health issues. Friends, family and loved ones are always welcome.

*Statistics indicate that cancer patients in support group settings live twice as long as those not involved. Come join us for support, information and discussion. For more info, email Ken Malik at [kamalik@prostateawarenessfoundation.org](mailto:kamalik@prostateawarenessfoundation.org) or call him at 415-675-5661.*
