February Topic:

Prostate Cancer Research Institute Symposium Review of Lectures

by Mark Scholz, MD & Mark Moyad, MD on DVD

Presented by John Bohan - PAF Board President

Mark Scholz, MD the President of the PCRI and Mark Moyad, MD the symposium moderator held a discussion and recap of what they considered to be the high points of this year's conference. The PAF has the DVD and John Bohan will lead a discussion. You won't want to miss this presentation which includes the latest information on: Radiation vs Radical Prostatectomy, Testosterone: is it really the enemy of prostate cancer, and Immunotherapy.

This is a great opportunity to meet people of similar interests, ask questions, voice concerns and have an in-depth discussion's about men's health issues. Friends, family and loved ones are always welcome.

Join us for an interesting and important discussion. Time will also be available to discuss your personal prostate concerns.

Statistics indicate that cancer patients in support group settings live twice as long as those not involved. Come join us for support, information and discussion. For more info, email Ken Malik at kamalik@prostateawarenessfoundation.org or call him at 415-675-5661.
