“Prostate Cancer Research Institute 2018 Symposium Recap of Lectures Plus Question and Answer Session” Conducted by Mark Scholz, MD and Mark Moyad, MD A DVD presentation

Mark Scholz, MD the president of the PCRI and Mark Moyad, MD the symposium moderator held a discussion of what they considered the most important high points of the weekends lectures. We will listen to their insights and discuss their comments. There are some important new developments in both diagnostic tools and treatment path options that are important developments, some of which may surprise you. The discussion topics include: Surgery or radiation, is one option superior? Testosterone, is it really the enemy? Immunotherapy for prostate cancer, what is the latest?

You won't want to miss this meeting. As always, there will be time to discuss your personal concerns and interests. Friends, family and loved ones are always welcome.

Please park on the street, the parking lot is for tenants!

Statistics indicate that cancer patients in support group settings live twice as long as those not involved. Come join us for support, information and discussion. For more info, email Ken Malik at kamalik@prostateawarenessfoundation.org or call him at 415-675-5661.
