

Prostate Awareness Foundation
Virtual On-Line Discussion & Support Group Meeting
Wednesday, September 23, 2020
5pm PST, 6pm MST, 7pm CST, 8pm EST

The PAF advocates a pro-active, complementary approach to prostate health and cancer. Our September meeting will include a short lecture on Vitamin D3 and Covid-19 from William Grant, PhD. He will also answer questions on Vitamin D3 and prostate cancer. Dr. Grant is a member of the PAF medical advisory board, he is a medical researcher who has devoted much of his study over the last 20 years to Vitamin D3 and its impact on human health.

PAF's Zoom virtual on-line meetings are a great way to share and learn from men all over dealing with similar issues. Let's learn together from each other! To best manage the meeting on line and to ensure that all participants will have an opportunity to be heard, we will once again limit this Zoom meeting to 25 participants. **Signups will be on a first come first served basis.** As at all PAF meetings, time will be provided to address your personal concerns and questions. You can also take advantage of a personal, free consultation by calling 415-675-5661 and making an appointment.

To listen to and participate in the meeting on September 23rd you must reserve your place. Please contact Ken Malik at kamalik@prostateawarenessfoundation.org and we will send you back the meeting ID number to use to log on. Friends and loved one's are welcome and encouraged to attend.

Statistics indicate that cancer patients in support group settings live twice as long as those not involved. Come join us for support, information and discussion. For more info, email Ken Malik at kamalik@prostateawarenessfoundation.org or call him at 415-675-5661.
