- ◆ This year about 200,000 men will be told they have prostate cancer
- ◆ Every 90 seconds another man is diagnosed with the disease
- ◆ 30,000 men will die from prostate cancer this year
- ◆ One of five men diagnosed will be under 60 years of age
- ◆ 30% of all US men have undiagnosed prostate cancer by age 60
- ◆ In many cases men are being over-treated for a disease which will not progress

The Prostate Awareness Foundation (PAF) offers information, support, and education about the treatment options available to those with prostate cancer. The object is to lessen the trauma, impact, problems, and depression associated with the disease and to encourage proactive responsibility for one's own healing. We also offer information to those who wish to take a preventative approach to the disease. Based in Sonoma County and the San Francisco Bay Area, we have been providing this service, nationwide since 1995.
