This Month's Topic: Discussion of Anti-Aging with Dr. Phillip Lee Miller

Philip Lee Miller, MD is a native of the San Francisco Bay Area and a graduate of UC Berkeley with a degree in Biochemistry. He is a member of the PAF Medical Advisory Board. As an author of a milestone book on Anti-Aging Medicine, he is now back by popular demand. He has lectured to the PAF multiple times in the past and his insights are always well received.

He is now prepared to share his own personal journey with prostate cancer. Insights that you will want to hear. The treatment path he has chosen for himself, and his rationale may surprise you. You won't want to miss this lecture. As always, there will be time to address your own issues and personal concerns. Please mark your calendar for October 15th.

PAF Zoom meetings provide an opportunity to meet and talk with guys from all over the country dealing with prostate issues. Our membership includes men with prostatitis, BPH, early and late-stage prostate cancer as well men with a family history of cancer wanting to avoid problems in later life. Friends, family and loved ones are always welcome.
